

ARROYO

Widely adaptable, Arroyo is a tall, upright romaine with Downy Mildew and Lettuce Dieback resistance.

Arroyo is well suited for both hearts and whole head production. It has attractive, savoy type leaves and is slow to cup in. Fresh market and Industry growers will appreciate Arroyo's excellent habit, attractive color and resistance to mildew and dieback. Tight internodes and a v-shaped base produce high quality hearts. Arroyo is best planted in the Spring and Fall slots – in cooler areas it can also be planted in the Summer.

- Excellent for hearts or whole heads
- Large planting window
- Reliable Pack-out
- Strong V-shape base

HIGH RESISTANCE

Bl:16-27,29/CAI-VIII.

INTERMEDIATE RESISTANCE

Lettuce necrotic stunt virus;
Tomato bushy stunt virus (lettuce dieback complex);
Corky root.

DISCLAIMER

Descriptions, recommendations and illustrations included correspond as closely as possible to tests and practical experience. This information is provided to assist professional growers and users; however, variable local conditions must be taken into account. Under no circumstances shall Enza Zaden accept liability based on such information for deviating results in the cultivated product. The purchaser is responsible for determining whether the items are suitable for the intended cultivation type and location.
