

Procraft F1

A strong new green-to-red blocky bell pepper for the open field!

A dual-purpose variety, appropriate for both fresh and processing markets due to its quality and firmness at all stages of maturity. Procraft is a tremendous yielder of thick-walled, blocky fruits. Procraft stays firm at maturity, and has a beautiful dark red internal and external color.

Resistance to Tomato spotted wilt virus combined with strong leaf cover and compact plant structure make this variety an excellent choice for organic growers in the West and beyond. Adapted to both coastal and interior growing conditions.

HIGH RESISTANCE: Bacterial spot (Xcv:1-3); Potato virus Y (PVY:0-1); Tobacco mosaic virus (Tm:0).

INTERMEDIATE RESISTANCE: Tomato spotted wilt virus (TSWV:0); Tobacco etch virus (TEV).

MATURITY	Mid-Season
SEGMENT	Fresh Market and Processing
CULTURE	Open Field
COLOR	Dark Green to Dark Red
PLANT HABIT	Compact with Excellent Canopy

DISCLAIMER

Descriptions, recommendations and illustrations included correspond as closely as possible to tests and practical experience. This information is provided to assist professional growers and users; however, variable local conditions must be taken into account. Under no circumstances shall Enza Zaden accept liability based on such information for deviating results in the cultivated product. The purchaser is responsible for determining whether the items are suitable for the intended cultivation type and location.
